Site\_2: Not I; The library was constructed according
Bonaldo, Lennon and Soares, Genome Research, 6:191-806,
1996. Denatured RNA was size fractionated on a 1% agarose
gel: First strand cDNA synthesis was primed with oligo-dr
primer containing a Not I site. Double strand cDNA was
size selected according to mRNA size fraction, ligated
with EcoR I adaptor, digested with NotI and then cloned
directionally into pix-Asc vector. The library tag
sequence located between the Not I site and the polyA tail
is AGGAGAGACAG. This library was created for the University
lows Brain Anatomy Project (BMAP): "Gene Discovery in the
Developing Mouse Nervous System", supported by National
Institute of Mental Health (NIMH), Hemin Chin, Ph.D.,

L. Submitted (16-UUL-2001) Yoshihide Hayashizaki, The Institute of Physical and Chemical Research Group, Exploration Research Group, Kinken Golence Exploration Research Group, Riken Geneme Exploration Research Group, Fax: 91-45-503-9216,

CDNA library was Drepared and sequenced in Mouse Geneme Encyclopedia Project of Genome Exploration Research Group in Riken Genomic Sciences Center and Genome Science Laboratory in Riken Genomic Sciences Center and Genome Science Laboratory in Riken Genome Royase mouse tissues.

Plasse wish to use the search in Riken contributed to prepare mouse tissues.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           / COGGIN_16-14-12
